

COLLECTION OF DONATED ITEMS AS A COMMUNITY SERVICE POLICY

In keeping with the J. V. Fletcher Library's Mission to provide a public forum and Commons space to the community, the J. V. Fletcher Library will provide community space for the collection of donated items (e.g. used eye glasses, used cell phones, etc.) under the following conditions. All collection initiatives must be authorized by the Director or his/her designee. Authorization shall depend upon the nature of the item being collected, the duration of the collection initiative and the availability of space within the library facility.

The willingness of the library to collect donated items in this public space does not constitute support, sponsorship or endorsement of any group or initiative. The public should be aware that collection of donated items for groups does not reflect Town endorsement, nor does the absence reflect non-support.

Voted and approved 3/3/08, Board of Library Trustees.
